By now you have noticed that last issue and this issue we had NO "Iron-Ons." Now, before you take pen in hand or sit down over your typewriter to ask WHY, we will explain. It's a very simple explanation. When we began using "iron-ons" in CARtoons the cost to produce them was NOT very expensive for what we saw in return (i.e. the SS profit), but over the years the cost rose (along with everything else). Not long ago, THE people that watch the money gave us at CARtoons a call and said, in effect, that the cost had reached the point where it was no longer profitable for CARtoons to have "iron-ons." The cost (which we shall not mention here) was way, WAY up there; it simply wasn't worth what we saw for the effort. "We do the magazine to make a profit" and the "iron-ons" were a BIG drain. They had reached the point where it was hurting us where the SS&cc was concerned. So, with heavy hearts it was decided that the "iron-ons" had to be discontinued. We realize that you folks found them enjoyable! We also realize that they were a VERY popular feature, but you must (PLEEZE) understand our point. We are, at this moment, looking into new ideas that are a bit less expensive. Some of our new ideas are pretty exciting and hopefully NOT too expensive! So, DEAR READERS, please bear with us and again WE are SORRY that we had to do what had to be done. We shall continue to try our hardest to give you the best we can for the money.

Thanks,

The Editors/CARtoons Magazine

SORRY, NO SUBS NEWSSTAND SALES ONLY

Dear CARtoons,

You have a great magazine, and I enjoy it when I read it! I found some OLD (and I mean old) HOT ROD CARtoons!! I have issue #1. You haven't changed a bit, except you're more up with the times. Can't wait till the next issue.

Dean L. Fregoso
Oroville, California

Quick Irv,

I have ONE QUESTION, and only ONE—WHY didn't my work make it into the right category???

Just recently, in your May/June issue of CARtoons, you ran your "Street Cruiser Contest" winners... A couple of months ago I sent away a SPECIAL to that address, only to read it was IN "My Wheels" Well, $10 bucks isn't all that bad, BUT I was really shooting for the Car Craft sub, too. Thanks for printing my picture anyway...

John Van Tol
Caledonia, Michigan

Dear CARtoons,

This is my first issue and boy do I feel lucky to have found such a great mag!! I loved the CARtoon with "Krass & Bernie"! Carls Jr. is real funny. "My Wheels" is really neat, those kids know how to draw!! I really would like to see more of "Corvette & Pretty Vacant," I love their cool car! I REALLY DIG CORVETTES!!! Would you show us a "How-To" on Broncos and Vettes? How 'bout puttin' K&B's dragster on an IRON-ON or in "How-To-Draw" section?!

Joe Burns
Brady, Texas

Well, we have no more iron-ons, but we are thinking along new lines. Stay tuned.

Dear CARtoons,

Your mag. is the GREATEST, & I love it!! I know everybody tells you that but it TRUE!! Trosley is #1 with "K&B"!! I'm glad there are "IRON-ONs" in your mag, 'cause I collect them. "Sand Rat" by Austin is super!! The Corvette on the cover of the March/April issue is awesome and I'd love to try an E.T. burger!

Dustin Baxter
Honeybrook, Pennsylvania

Yeah, with fries....

Dear CARtoons,

I have been reading CARtoons for about three years and I want to say
you folks are doing a heck of a bang-up job!! The last issue I read (May/June) had a really great front cover by Trosley and a real awesome job on the back by Shawn—I love the way she does the crowds in the background! Bob Hardin, is really genius! I liked the story "The Road Worrier," Especially the start. I'd say Ms. Kerri is the BEST artist around!! I hope you have MORE photo and drawing contests, I missed the last one. Well I'll always be on the look out.

Eric Coleman
Eugene, Oregon

Dear CARtoons,

I'm sailor off the U.S.S. Inchon. If you recall my best buddy, Daniel (SQUID) Boy, NOT Bay, wrote you a letter which you published as the 2nd place winner in March/April issue. Well, I'll ditto his request ANY SUBS??????? Sometimes it's almost impossible to get CARtoons while at sea. You have an outstanding mag. and I get really upset when I miss an issue! I guess you've been asked a few times WHY we can't get SUBS!!!

Well, were gonn' to keep askin' till the answer is Yes!!! Thanks for listening and HOPE SOMEDAY we'll be able to get subs to your fab. mag.!!!

Roy E. Frederick
FPO NY., NY.

As usual Roy, we have no subs. One day, who can tell?

Dear CARtoons:

In the Nov./Dec.'82 issue, I think everybody was not at their best 'cause it was the end of the year, et al. This year's Jan./Feb. issue is gettin' better! Kerri is really doin' great with "Ford & Willys." But Marnick's idea about "Wind City" was a little wild! "Car Thing" by Bob Hardin got me crackin' up and so did the CARtoon greeting card in the back!! I am a GREAT fan of Dennis Ellefson, but I think he is beginning to slip a little here an' there. About your '83 ish—LOST, by ol' Den-Den, was almost realistic! As usual, my brother tripped out on Tom Marnick's "Corvette & Pretty Vacant." How did he get that idea anyway??? As ALWAYS Trosley is great with Krass & Bernie. One thing, Lambright & Dery's "The Crewzer" was WEIRD!!! Right on Shawn! Show them guys what you're made of!!! You are a great artist Kerri!! I just wish I had half of your talent!! "Carl Jr." by Alteri was OUT OF THIS WORLD!!! (get it??????) Give my thanks to Trosley, now I know where I've made my mistakes on drawin' Mustangs. All in all, you are starting to get back into the CARtoons of the better days (way back then... whew). Thanks for hearing a girl's point of view on your terrific mag!! Well, see ya' next month....

Your fan forever,

Beth Myers
Palm Springs, California

P.S. Dennis, the inside front cover looks strangely like my best friend's brother's car!!!!!

Beth strikes again.

Dear CARtoons:

I have been reading your mag. since it came out and I think it's great!! My favorite part is "Krass & Bernie." I have written to you guys about 12 times, & my NOT ONE letters been published!!?!! I still think CARtoons is 100% great!! Just fin- ished the Jan./Feb. issue—it was perfect!! Especially "CORA-VETTE & PRETTY VACANT." I'd give anything to have a SUB to CARtoons!!!

CARtoons Magazine is more mentally advanced than other mags, like Mad and Cracked and Crazy. If my letters get's published I don't care if I win any prizes but I just want to reach my goal in life, having one of my letters printed!!! In the story "Cora-Vette & Pretty Vacant," who did the art work?

Mark Lasalle
King, N.C.

Next issue (October '83) have we got a surprise for you!! We don't want to spoil it by telling you just what it is, but we think you are going to LOVE it!! So, don't miss our October issue!! We think this new idea beats the iron-ons all to the Devil!!

The Editors
Hey 'toons:

Just wrote to say how much I get into your mag. It's super!! Tell Trosley to keep up the "HOW-TO-DRAW..." It helps me a lot!

Also, keep up the Iron-ons! I can hardly find your mag. where I live, but I hope it goes monthly anyway. The car chase features are great and I hope you guys write more of them. I think you should do a feature on tractor pulls! Well, I don't care what other tight-wads say—at $1.50 the magazine is cheap!!! Luv the mag and hope you come up with subs.

Don Herzog
Sidney, Ohio

Hey 'toons,

In reply to Lewis Watson in the May/June issue, the Cobra was the faster car between the two, but if he had taken the time to look at one of the Dodge muscle cars, take for instance the '66 Super'B'Charger, stock from factory it came with none other than the 426 HEMI, dual 4-barrels, 4-speed tranny, and the DANA rear-end. Top speed was 205 mph!! SO as you can see Dodge smokes on Ford and Chevy! By the way, I LOVE "K&B" Tell Trosley to keep up the GREAT work!!!

Stan Silano
British Columbia, Canada

Dear CARtoons,

I found an old copy of CYCLE-TOONS dated August 1972. It's got Pete Millar & Nelson Dewey in it. I thought that you could tell me how much its worth and if it's a collector's item?!

Benjy Klaves
Riverton, Illinois

Hmmm. Good question. Maybe a reader out there can help.

Dear CARtoons,

I like your Nov./Dec.'82 issue. I thought it was fabulous!! Tell Trosley and Kerri to keep up the good work!! I especially like the drawings in "My Wheels!" Now I know how to draw a car. "Krass & Bernie" are great also!! Keep up the good CARtoons!!

Jim Reynolds
Cheyenne, Wyoming

Dear CARtoons,

Here at the academy (Marine Corps Military School) CARtoons is practically the only book I can ever read besides FM (Field Manuals), so in the last two years I have become VERY fond of your mag!! CARtoons has been read by every person in the barracks—which is over 102 men in each barracks, plus our Colonel! From our barracks we all thank you for inventing CARtoons, for the mag brings our battalion enjoyment a plenty!!!

Colo Craig L. Burcky
M.C.M. High School

Well, thank you. Say "Hi" to all the boys and the Colonel.

Dear CARtoons,

Your last issue was excellent! I loved the cover by Mayhabb! I also thought Ellefson's "Barry Wiggins" and Testa Rossa" was GREAT!! So was "File & Sand." Ellefson, you're putting great energy together WELL!! Shawn Kerri and her art and ideas are SUPER, WOW!! Does she have talent! Steve Austin with his "Tube City & Saturday Night Hustle" was excellent! Bob Hardin's
"V.T." was like totally awesome, PER SHER! As well with "Options for '83 that Failed." WHAT WORKS!!!! If it weren't for you folks, I'd be sooooo bored especially on the rainy days. Keep up the excellent work!! By the way, I like how you keep up with the latest styles in your characters.

Rich Gillespie
Waukesha, Wisconsin

Oh, we hang out and check what the people are wearing and all that.

---

Dear CARtoons,

I think your mag. is the BEST I've been collecting it for three years (so far) and intend to collect MORE!! My very first copy was the March/April issue of 1980. I thought it was really great, so then after that I started collecting CARtoons. You folks only get BETTER with each issue!!

Now I know a lot more about your mag. and can appreciate talent like Shawn Kerri's who I think is excellent!! I really like her "Kit Cactuspants Colson" pieces! My FAVORITE is Bob Hardin!!!! I think he is SUPER!!! Some of the other artist's work is OK, too. I hope you put in some more 4x4s and keep up the EXCELLENT talent!!

Bart Blankemeyer
Pandora, Ohio

---

Yes, O! Bobby does the deed.

---

Dear CARtoons,

I have a suggestion on how to get rid of some of your drawings!! Either make your books larger (with more pages) or publish an EXTRA SPECIAL CARtoons with nothing but "My Wheels" drawings in it. I will be watching for you monthly in July, August, September, and October!!!

Please give my thought an idea OR my idea a thought. Just think A WHOLE BOOK of "My Wheels!" I will put my name in Erica, so watch for me.

Yours CARingly,
Bryan K. Wade
of the U.S.A.

---

That is a weird idea.

---

Dear People Who Write CARtoons,

Your May/June issue was very funny! The example of "How-To" on 4x4s game got me a job as a cartoonist in my town newspaper. SO I THANK YOU VERY MUCH!!!! Please let me say that the "Road Worrier" is very dramatic! Thanks to your dear Erica section I have a new pen-pal. The articles like "exhausted" are fabulous!! "Iron-Ons" are SUPER!!!

Hey, I'm sorry that you're not able to catch up with all theERICA letters. We the loyal fans will be patient 'cause we LOVE CARtoons! RIGHT?? Well, I'll let you folks get back to work on making another magazine. Keep up the good work!!

Tom Coykendall
Nehawka, Nebraska

---

Yeah, it's tough to be sooo popular.

---

So, that's it for this time group. We are getting very good letters now and we still are interested in hearing from all you people. Next issue we got that surprise coming and I'm sure you folks will flip. Oh, yes, one more thing before I sign off... How about those neat ads, gang?

WHY DON'T YOU TRY CARTOONS...
How To: Draw Little Chevys

Chevys got lotsa big muscle cars but let's not forget the little Chevys... like this Vega, start with two boxes setup like I've got 'em here. A center line up the middle will help us a bunch so lay one in, rough in a shadow under em.

Let's start carving out the roof line... get that windshield tilt right as well as side window pillars. Box in a blower assembly through the hood. Note how fender line dips down to the headlights. Hood center line dips even more, box in grill and bumper and loosely detail wheels.

Okay... a little more detail to the blower, grill and tires is needed as well as a roll bar and driver inside. Work out some body graphics then neatly ink all this in using ball point or felt tip pen adding blacks to the tires and shadow... smoke an' sound help too!
How 'Bout a Little Chevette!
They're snappy little rods when beefed up so let's start one with the basic boxes shown here along with a center line. Pop on a set of big tires in the back and a smaller set up front keeping sizes right with guide lines. Add some depth to the tires with more ovals. Rough in shadow area.

Box out that roof line and windshield angle adding the side and back window pillars carefully - the proper angle is important. Hood line slopes down to headlight boxes that angle back slightly. Small grill opening points and is divided by a bar. Loosely rough in front bumper... blower... pipes and driver. Add a little more detail to the rims.

We've almost got it now... work out that interior a little more - tuck n' roll looks good! Some attention to the blower assembly and front end help a bunch. Wrap the front bumper around the sides a bit and add a couple parking lights. Chrome the pipes... lay on some custom paint then ink. Careful use of darks can really make a drawing. Always do your best!
MONZA STREET FREAK is next so rough in (what else?) the two boxes as I've done here. A side body line will help this time so rough in one of those too. Biggie tread on the back with smaller stuff up front will help get this monza up and thumpin'. Notice the lift to the thing. Lay in a shadow to help that illusion!

Start feelin' out that roof line beginning at the rear of the side body line. Arch it up and over to the windscreen posts. Notice how side windows cut down and into the body. The hood slants down to the angled headlight boxes. Front bumper hits the body line with the parking lights in the pan below. Rough in rims, pipes, hood scoop, and car freaks.

Detail out every thing to your tastes adding quad head-lights, suspension, chrome pipes and wheels. Fire, smoke and sounds breathe life into er! Ink all this real carefully and don't forget to add a few blacks! Go magic fingers!

GIVE IT ALL YOU GOT!

CHURP CHURP
CHECK OUT THAT VAN! THE MURALS ARE ALL OF WRECKS!... NOTHING BUT AUTO CRASHES! WEIRD.

HEY, HOW'S ABOUT PULLING OVER BEHIND HIM, SO WE CAN SEE IF HE'S GOT THE SAME STUFF BACK THERE?!

WATCH OUT! HE'S BRAKING!

WHAT WAS THAT ALL ABOUT?

LOOK, MAN... AN ARTIST CAN ONLY WORK WHEN INSPIRATION STRIKES, YA' KNOW? THEN I JUST PAINT WHAT I SEE!
HI, OK! LIKE WORD HAS REACHED US THAT A GOOD PORTION OF OUR NEW READERS ARE NOT FAMILIAR WITH THE BASICS OF AUTOMOTIVE GADGETRY. IF YOU ARE GOING TO READ A AUTOMOTIVE HUMOR MAGAZINE, IN THIS CASE 'CARTOONS' (THE BEST... FOR SURE!), YOU HAVE TO KNOW THE BASICS. SO LET'S GET TO IT! WHAT WE HAVE IN THIS THREE PAGER ARE SOME CLARIFICATIONS OF A NOVICE 'AUTOBUFF'S' THOUGHTS (STRANGE THOUGHTS TOO!) AND DON'T LAUGH, I TOO THOUGHT A MUO FLAP WAS MADE OUT OF MUD. D.K. NOW READ ON AND PAY ATTENTION BECAUSE...

A self-assembled, electronic, in-car locking hood release system ...

... a chrome bonded, high gloss, anti-graffiti, Starfire enamel, has also been added for protection from these spray paint freaks.

... and this whole car, inch per inch of it, has been wired with an AAA approved early warning alarm system ...

... and with all of this safety equipment comes the peace of mind of knowing my car has a sure chance of surviving any type of criminal attack ...

... I've got every thing but a 24 hour police watch surrounding this jewel!

Hey! Are you just going to leave your car out here in the open?

It's OK! Don't worry about it! I locked the doors!
First Things First

SHARP, MAN, SHARP! IT'S YOU, FOR SURE!

WELL... HOW'S IT LOOK? I MEAN, WHAT DO YOU REALLY THINK?

Yeah... okay, I'll take it.

Alright, let's see... that's one leather jacket, a pair of riding gloves, a Simpson helmet, Vetter fairing, Kerkar headers, two quartz halogen lamps, two Dunlop tires, a Kryptonite lock, Pacifico trunk & stereo, & a custom mirror!

That comes to $1,500... you must be quite a cycle enthusiast, eh?

Well, it's quality stuff, & I always do enjoy that!

I can't help wondering... just what kind of cycle do you have?

Well, I'll have to decide that when I save my money up again!
HE SAYS HE WANTS TO SHOW ME SOMETHING THAT'S IMPOSSIBLE TO SEE!

JEEZ...I APOLOGIZE...I MEAN THIS STORY IS THE MOLDSY PRUNE AT THE BOTTOM OF THE CARTOON BARREL WHEN I TALKED TO SIR DENNIS THE EDITOR, I THOUGHT HE SAID HE WANTED A SILLY SCRIPT AND DUMB, BEAT-CAR STUNTS. WHAT HE WANTED WAS A THRILLING SCRIPT AND SOME NEAT CAR STUNTS. WE MUST HAVE A BAD CONNECTION BETWEEN READERS, VIEW THE BRIGHT SIDE...THERE'S PLENTY OF AUTOMOBILE ACTION, VOLUPTUOUS GIRLY TYPES, MACHO MALE MEN AND ASSORTED BACKGROUND OPPITIES. HEY, MAYBE, THIS STORY WILL WIN THE COVETED CARTOON TURKEY OF THE YEAR AWARD FOR "DUMNESS" (NAW...TOO MUCH COMPETITION). JUST KEEP IN MIND THAT THE GOLFBALL RALLY, BEAT MY DUST FUSED CARS, MAD MAX AND IT'S A MAD, MAD, MAD SQUIRREL ALL DID WELL AT THE OL' BOX OFFICE. SO THERE'S STILL HOPE FOR...

Bow...Wow!
Hey, Captain Luftanza...
The pool hall's way over there.

Yea, I noticed that little detail myself.

Guess I didn't compensate for the Jeep CJ glide factor.

I've heard of car-pooling, but this is ridiculous.

Spash!

How are we gonna talk our way outta this?

I think we should swim our way outta this.

Hey, we wanted to play pool... yik, yik!

Thing we didn't wanna play house, yik, yik!

Maybe we can drive away unnoticed.

Maybe we can... this whole thing's been dumb... might as well keep things consistent.

Ooh!

Male chauvinist water pigs.

Gosh... pool sharks.

Really dumb ending!

ONCE, JUST ONCE, WE WANTED TO MAKE A PRODUCT THAT EVERY DRIVER COULD AFFORD

The rules say you're supposed to hold the cost down and keep the price down. Well, we did just that. We imported the finest wax technicians from West Covina and forced, er... asked them to come up with the cheapest car wax that was humanly possible. This was a special blend of Burbank tap water, old bubble gum, and eye of Newt. Guaranteed to give your wheels the brilliance of old pretzels. Cheap stuff for the cheap driver with a cheap ride.
